

Mission: The Erie 1 BOCES School Library System is a network of certified school librarians and library staff who enable students to become lifelong learners through the vision, leadership and services provided to the school community. We facilitate and expand services to access quality informational resources, the sharing of resources and ideas, and provide professional development to empower and support both the learning environment and lifelong learning skills of students in our region. The SLS serves to work with the membership to provide the resources for information literacy, support the rigorous goals of the NYS Common Core Learning Standards for the learning community using various technologies and the promoting of the school's library program and collaborative partnerships.
